And now that the Epic and Epic Black Editions are standard across all the 2.8-l engine derivatives, the luxury of freedom has been taken to a whole new level. These models have been enhanced with exclusive styling, functionality and value-adding features that make this our most epic special edition yet.
Whether you're looking for a 4x4 or a 4x2 drivetrain, a diesel or a petrol engine, a 6-speed manual (available on the 2.4 models only) or 6-speed auto transmission, there's a Fortuner for you. And now with the introduction of the Epic exterior and interior styling package, South Africa’s favourite SUV has a whole lot more to offer from the range.

OUR WIDE RANGE OF FORTUNER MODELS MEANS YOU GET THE LUXURY OF CHOICE.

THE ENTIRE RANGE OF LUXURIOUS FREEDOM

- 2.7 VVTi RB 6AT

THE FORTUNER MODEL LINE-UP:

RANGE MODEL SHOWN

AN ENTIRE RANGE FOR LUXURIOUS FREEDOM
WHEREVER YOU’RE GOING, THE INCREDIBLE ENGINES AVAILABLE IN THE FORTUNER WILL ENSURE YOU ALWAYS HAVE ENOUGH POWER TO GET THERE.

PACKED WITH PERFORMANCE

Advanced engine technology has allowed diesel engines to have a smaller capacity with higher torque. And you get all the off-road capabilities like differential lock, Hill Assist Control (HAC), Trailer Sway Control (TSC), Downhill Assist Control (DAC)* and Active Traction Control (ATRC)*. The 2.8 litre Epic and Epic Black engine has a power output of 130 kW @ 3400 r/min and torque of 450 Nm @ 1600-2400 r/min. The 2.4 engine has a power output of 110 kW @ 3400 r/min and torque of 400 Nm @ 1600-2000 r/min.

The 2.8 litre Epic and Epic Black models are available in a six-speed automatic transmission and the 2.4 litre engine models are available in a 6-speed manual and automatic transmissions.

The 2.7 litre petrol engine has a towing capacity of 2.5 tonnes, a power output of 122 kW @ 5200 r/min and torque of 245 Nm @ 4000 r/min. This petrol option operates off the six-speed auto transmission.

All Fortuner models boast supreme off-road capabilities with a ground clearance of 279mm and a towing capacity of between 2500 and 3000kg. If you choose a 4x4, you can change between 4WD, 4WD LOW and 2WD with a flick of the wrist using the conveniently located electronic range selector switch.

Across the entire Fortuner range, you can expect excellent fuel consumption and a more eco-friendly drive, thanks to the advanced 4-cylinder engine and smooth transmission system. Plus, you can switch between Sport, Eco and Intelligent Manual Transmission (iMT)* Drive Mode at the touch of a button.

* Available on selected models only
All Fortuner models sport high-quality finishes you can both see and feel, like the LED front* and rear lights, LED front* fog lamps, and taillights, Daytime Running Lights (DRL)*, and color-coded* retractable side mirrors.

"Epic" branding on the rear, nudge bar and door scuff plates, as well as the addition of a tow bar as standard on the Epic and Epic Black models, set these beasts apart from the pack. The Epic Black model has a two-tone body defined by a glossy black roof (including roof rails, unique 18-inch black alloy wheels and a black outside rear view mirror.

* Available on selected models only

NO MATTER WHICH MODEL YOU CHOOSE, EVERY FORTUNER IS DESIGNED TO LOOK AS GOOD IN THE URBAN JUNGLE AS IT DOES ON A DISTANT MOUNTAIN PASS, FROM THE FULL ALLOY WHEELS TO THE BOLDLY DESIGNED GRILLE.
Luxury is defined in the details, that’s why everything in every Fortuner interior has been carefully considered, from the bold, highly stylish design to the sophisticated technology incorporated throughout.

We’ve included interior comfort and convenience features like cruise control, automatic* air-conditioning, a reverse camera, TFT* Multi-Information Display, a Push Start System and Smart entry. The touch screen audio system comes with USB, Bluetooth, auxiliary functionality and navigation*, all of which can be operated using the conveniently located steering switches.

Open the doors to a partial leather seat trim with space for up to seven passengers. The second-row seats are in a 60:40 combination and the third-row seats fold up for optimal space and storage.

The 2.8 Epic and Epic Black models go a step further with a power back door system that can be opened and closed electronically from the driver’s seat, or with the wireless key, and the look is completed with “Epic” branded floor mats.

* Available on selected models only.
WHEN YOU CHOOSE A FORTUNER, YOU CHOOSE THE FREEDOM TO GO ANYWHERE, IN ULTIMATE LUXURY AND STYLE. SO, MAKE IT EPIC.

Every Fortuner model is equipped with state-of-the-art safety technology to help prevent accidents and emergencies, and to reduce injury in the event of a collision. Safety features include driver, front passenger, side, curtain and driver-knee airbags as well as Anti-Lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Vehicle-Stability Control (VSC), Brake-Assist (BA) and Hill-Assist Control (HAC).

No matter which Fortuner you choose, including the Fortuner Epic, security comes standard. All models are equipped with an Anti-theft system comprising of an immobiliser and alarm, wireless door lock (smart entry), auto door lock, and an Automatic Light Control System with Follow-Me-Home lights.

WHEN YOU CHOOSE A FORTUNER, YOU CHOOSE THE FREEDOM TO GO ANYWHERE, IN ULTIMATE LUXURY AND STYLE. SO, MAKE IT EPIC.

SUSTAINABILITY

Materials offering excellent recyclability such as TSDP (Toyota Super Glue Polymer) and TPO (Thermoplastic Polyolefin) have been actively adopted to make our vehicles more environmentally friendly. Guided by the goals of the Toyota Environmental Challenge 2050, all new models involve methods and measures that make possible the reduction in the use of raw materials such as plastic, glass, and paper. In addition, measures are being taken to maximise the use of recycled materials and reduce the amount of emissions and resources consumed in the entire production process.

To establish a society where humans and nature coexist in harmony, we are promoting the Toyota’s philosophy of continuous improvement. We are working to reduce the loss of water and make our vehicles as environmentally friendly as possible. With this in mind, the entire Fortuner range has adopted several activities to connect regions, the world and the future. How many of us have already travelled around the world with the same spirit of the environmental challenges?

CHALLENGE 2
LIFE CYCLE ZERO CO2 EMISSIONS CHALLENGE

Toyota is serious about combating the problems associated with waste tires. In order to contribute to the reduction of raw materials, we have developed several recycling systems, including the use of tires as a material in the process of materials production, disposal and recycling of vehicles. Moreover, the Fortuner has been made in such a way that the vehicle itself will play an active role in reducing the amount of waste generated during its life cycle. It is the only vehicle in the world to use waste tires as raw materials for the production of the entire vehicle, from the doors to the wheelrim. Therefore, even a small reduction of its impact on the water environment is important.

CHALLENGE 4
CHALLENGE OF ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

Toyota is committed to the following six challenges:

- LIFE CYCLE ZERO CO2 EMISSIONS CHALLENGE
- PLANT ZERO CO2 EMISSIONS CHALLENGE
- CHALLENGE OF ENSURING HARMONY WITH WATER
- CHALLENGE OF ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE
- LIFE CYCLE ZERO CO2 EMISSIONS CHALLENGE
- PLANT ZERO CO2 EMISSIONS CHALLENGE

- LIFE CYCLE ZERO CO2 EMISSIONS CHALLENGE
- PLANT ZERO CO2 EMISSIONS CHALLENGE
- CHALLENGE OF ENSURING HARMONY WITH WATER
- CHALLENGE OF ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE
- LIFE CYCLE ZERO CO2 EMISSIONS CHALLENGE
- PLANT ZERO CO2 EMISSIONS CHALLENGE

In addition to reducing CO2 emissions in each step of the life cycle, we have also actively adopted the Toyota Environmental Management System in all aspects of production, sales, and service activities. Toyota and its suppliers are working hard to reduce CO2 in not only Toyota vehicles, but also in all the materials and parts that go into them.

Toyota is serious about combating the problems associated with waste tires. In order to contribute to the reduction of raw materials, we have developed several recycling systems, including the use of tires as a material in the process of materials production, disposal and recycling of vehicles. Moreover, the Fortuner has been made in such a way that the vehicle itself will play an active role in reducing the amount of waste generated during its life cycle. It is the only vehicle in the world to use waste tires as raw materials for the production of the entire vehicle, from the doors to the wheelrim. Therefore, even a small reduction of its impact on the water environment is important.
